

Take Your Game Inside!

Golf Learning Center

featuring aboutGolf Simulators

These technologies are used by the best instructors around the world to help golfers elevate their game.

Simulators feature high-speed recording technology from aboutGolf that accurately tracks ball and club data, including speed, loft and direction.

The Golf Learning Center at Schaumburg Golf Club is the place to improve your golf game regardless of weather conditions. Three aboutGolf simulators are available for practice range sessions, challenge games or a round on some of the world's finest courses.
